SUMMARY

CS student at Cal Poly SLO (3.86 GPA) with full-stack experience in the MERN stack, seeking summer 2027 SWE internship.

EDUCATION

Bachelor of Science in Computer Science

California Polytechnic University, San Luis Obispo • San Luis Obispo, CA • Expected 2028 • 3.86 GPA

• Full Stack Open Course

PROJECT

TaskRabbit

github.com/RareDoge/Collaboration-Project • August 2026 - Present

- Developing a full-stack collaborative task management application using MongoDB, Express, React, and Node.js.
- Building JWT-based authentication and authorization to secure user accounts and enable secure private projects.
- Developed a responsive frontend using React, HTML, and CSS.
- Designed and implemented 4+ RESTful API endpoints (GET/POST/PUT/DELETE) for issue tracking with full CRUD functionality

Algorithm Visualizer

github.com/RareDoge/Algorithm-Visualizer • May 2025 - June 2025

- Used C++ and Raylib to create a sorting algorithm visualizer to better understand data structures and algorithms.
- Implemented Merge Sort algorithm as well as bubble sort for comparison.

SKILLS

Frontend: HTML, CSS, Javascript, React

Backend: NodeJS, Express, JWT Authorization, RESTful API

Languages: C++, Python, Java, Javascript

DataBases: MongoDB Atlas

Version Control Systems & Developer Environments: Git, Github, Linux, Bash

EXPERIENCE

Team Member

Whole Foods Market

September 2022 - June 2026, Huntington Beach, CA

- Collaborated with team members to maintain department operations and complete daily tasks efficiently.
- Assisted customers and resolved questions in a fast-paced retail environment.

INVOLVEMENT

Software Engineer

Orange Coast College • Spookathon • October 2025 - October 2025

- Developed a stock market analysis project to help people choose which stocks to buy.
- Participated in hackathon, developed HTML, CSS page for our group.
- Used Python to build data charts in matplotlib analyzing stock information
